<p>Remove the cap from the side pole and slide the cross bar in the grooves of the poles, then slide the hanger bar in.</p>	<p>Secure the cross bar with allen key (you will need to readjust it later), then secure the hanger bar by tightening the rings on the end of it</p>	<p>Put the caps back on the top of side poles. Your frame should look like on the picture above</p>
		 <p>Faces up</p>
<p>Attach the frame to the base using the screws supplied with the base. You may need to ask another person to help you.</p>	<p>Tighten all 8 screws. It is normal if screws overlap each other slightly.</p>	<p>Adjust and tighten the hanger bar so it sits at a slight angle (you can do it later after hanging the holders)</p>
		
<p>Slide the hooks on the back of the brochure holder on the hanger bar. For next rows, slide the hooks on the front of preceding holder</p>	<p>Adjust the cross bar so it supports the back of the last level holder.</p>
